## PRODUCT INFORMATION

### Product functions

---

Compatible with audio format  
MP3/WMA/WAV format.

Compatible with video format  
AVI/ASF format.

Support function of picture browsing  
JPEG/BMP/GIF/PNG format.

Support function of E-book  
E-book files in TXT format (in ANSI)

Support function of FM radio  
Frequency ranging from 87.5 to 108 MHZ

Support FLASH playing  
With Macromedia Flash Lite 2.1.

Embedded with 4.3 inch TFT Touch screen  
High definition pictures and videos with 16M colors.

Built-in rechargeable battery  
Extra batteries are not necessary.

Conversion Software  
Convert video file which is unable to be played into playable format with conversion software.

### Package Content

---

1. PMP
2. Manual
3. AC adapter
4. AV in cable
5. USB line
6. Earphone
7. Carry case

## Function display

❶ ⏻ POWER

❷ ✕ ESC

❸ MIC MIC

❹ ◯ RESET

❺ SD SD Card Slot

❻ ➡ USB Port

❷ 🎧 Earphone Jack

❸ AV IN AV IN

 Format : 48kbps, 16000Hz, stereo

**Caution :** Output file will cover existing file which has same name in folder.

4. Click “Start” for file conversion.

### General Malfunctions and solutions

#### 1. Cannot Start up.

Player may be out of battery. Connect it to AC adapter, recharge for around 10 mn and try again.

#### 2. Shut down automatically after start up.

- Not enough power leads to auto-off.
- “Auto-Off” function has been activated.

#### 3. Cannot recharge.

Make sure AC adaptor is connected or plugged with jack. Be sure right adaptor is used.

#### 4. Buttons do not work.

Press “RESET” to restart. If it still does not work, please take it to after sales department.

#### 5. Data only read from SD card.

Set “Memory” in “Tool” as working area after SD card inserted.

#### 6. If the touching not work or touch not exactly, please do TP-Calibration.
